JUAN PABLO HUICI

WEB DEVELOPER

As a highly motivated web developer with a passion for the IT industry, I am excited to take on new challenges and grow my skills. My current experience includes designing and developing commercial emails and landing pages, giving me a strong foundation in web development. I am motivated to take the next step in my career as a server-side web developer and utilize my skills in technologies such as Python, Django, Flask, and PostgreSQL. I am looking for a dynamic company that values ongoing learning and growth, where I can contribute to challenging and exciting projects.

MY WORK EXPERIENCE

Web developer

Freelance

Jan 2022 - Present

- Design and development of emails and landing pages with HTML and CSS in mobile and desktop format.
- Developing personal projects by designing their architecture, structure and scalability, working efficiently and applying best practices in Python and Javascript.
- Proficient with frameworks like Bootstrap,Django or Flask to improve functionality.

AH Automatismos
